ABOUT DEC

Desentral Engineering Consultancy (DEC) is a Grade A multidisciplinary engineering and design consultancy delivering integrated solutions across architecture and civil, structural, mechanical and electrical engineering. Operating across Qatar, Egypt and KSA, DEC combines technical expertise, regulatory knowledge and sustainable design to deliver coordinated solutions from concept through construction.

DES | ENTRAL

DESIGN | CENTRALIZATION

The name Desentral represents the convergence of Design and Centralization–reflecting our approach to bringing architecture, engineering and specialist disciplines together through a centralized framework of coordination.

OUR MISSION

To engineer and deliver end-to-end consultancy and design solutions that seamlessly transform complex architectural concepts into fully compliant, permit-ready, and sustainable, high-performance built environments. We guarantee asset value optimization through rigorous adherence to regulatory codes, transparent project life cycles, and technical execution.

OUR VISION

To be recognized as the premier institutional engineering partner across the GCC region–distinguished by our technological sophistication, absolute regulatory authority, localized economic value, environmental leadership, and unyielding commitment to fast-track project delivery.

OUR VALUES

- EXCELLENCE & INTEGRITY
- INNOVATION & TECHNOLOGY
- SUSTAINABILITY
- CLIENT PARTNERSHIP
- KNOWLEDGE & GROWTH

DEC AT A GLANCE

CERTIFICATIONS & REGULATORY STANDING

ENGINEERING EXPERTISE. LOCAL AUTHORITY KNOWLEDGE. INTEGRATED DELIVERY.

DEC combines multidisciplinary engineering capability with practical knowledge of Qatar's regulatory, approval and construction environment. Our integrated approach connects design, authority approvals, tendering, supervision and project delivery under coordinated technical leadership.

GRADE A MULTIDISCIPLINARY CONSULTANCY

A Grade A engineering consultancy providing coordinated architectural, structural, MEP and specialist engineering services.

AUTHORITY-FOCUSED EXPERTISE

Practical experience managing submissions and approvals across relevant authorities, from initial design stages through permits and project completion.

INTEGRATED ENGINEERING

Architecture, structural, MEP, fire & life safety, and specialist disciplines coordinated through a unified project approach.

END-TO-END PROJECT SUPPORT

Supporting projects from feasibility and design through tendering, permitting, construction supervision and close-out.

QATAR EXPERIENCE

A growing portfolio of 300+ project engagements, covering commercial, workplace, retail, F&B, hospitality and other developments across Qatar.

TECHNICAL LEADERSHIP

Experienced engineering leadership supported by specialist teams in Qatar and Egypt, delivering local project management and technical expertise.

THE DEC DELIVERY MODEL

ONE CONSULTANCY.
ONE COORDINATED JOURNEY.

DEC follows an integrated delivery approach connecting design, authority approvals, tendering, supervision and project delivery – ensuring technical quality, compliance and coordinated outcomes from concept to completion.
